

TERBERG

YT-SERIES

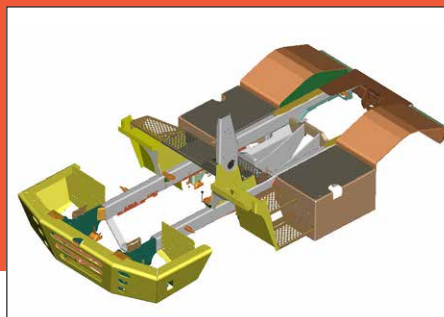

MOVING THOUSANDS OF
TRAILERS WITH CARGO

BASED ON PROVEN DESIGNS

- Gross Combination Weights up to 185 tonnes
- Fifth wheel lifting capacity up to 36 tonnes
- The fully welded chassis is a perfect combination of modular construction, strength, weight and easy access
- The spacious and strong, all-steel cab structure (fully FOPS and ROPS tested) ensures maximum driver protection
- The large rear window gives excellent driver visibility under all working conditions
- Inboard door for safety and convenience
- Based on proven designs, ensuring reliability and lowest operating and maintenance costs
- Incorporates high quality components, available throughout the world

YT-series 4x2

The fully welded chassis is a perfect combination of strength, weight and easy access

Strong, all-steel cab structure (fully FOPS and ROPS tested) ensures maximum driver protection

THE PERFECT CHOICE

YT182 / YT222 / YT202-EV

- Designed for moving trailers in distribution centres, transport depots, container terminals and airports
- If your application requires extensive reversing you may consider the TT-series which features a 180° swivelling seat
- The YT222 has a more powerful engine than the YT182 models
- Our worldwide distributor network and our efficient spare parts service ensure professional after-sales support

Yard tractors

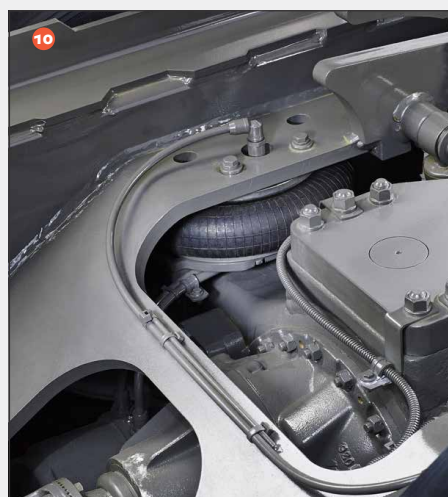

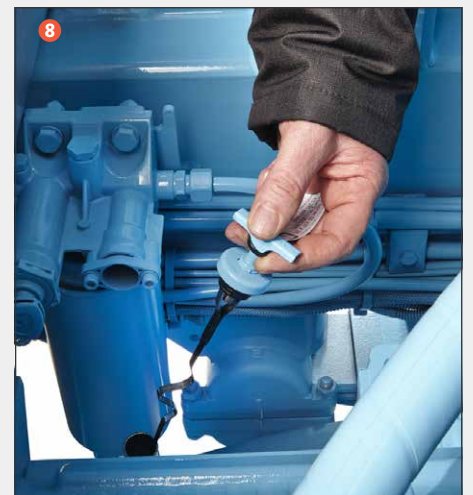

YT-series 4x2 Yard tractors

1. Batteries and pneumatic system
2. Convenient, comprehensive access to vehicle information without the need for a laptop computer or other equipment
3. Clearly marked relays and fuses, all accessible in one central compartment
4. Standard feature: sound insulation material to ensure low noise level
5. The increased interior cabin space offers a high degree of comfort and an excellent working environment for the driver

- 6. Hydraulic oil level
- 7. Easy topping up engine oil
- 8. Transmission oil level
- 9. Coolant level
- 10. Optional: rear axle air suspension for extra driver comfort
- 11. Optional: safety support behind the cabin

YT202-EV

Fully electric drive

The Terberg YT202-EV is a fully electric yard tractor designed for moving trailers in distribution centers, transport depots, container terminals, etc. Fully electric drive means the vehicle is economical to operate and does not lead to emissions at the point of use. The electric motor requires less maintenance than a diesel engine and is quieter.
